Summary

Professional Summary

Data Strategy & Solutions Lead | 7+ Years Experience

Results-oriented leader with over 7 years of specialized experience spanning **Telecom, Technology, and Oil & Gas**. Expert in bridging the gap between technical data engineering and high-level business strategy. Proven track record of designing scalable solution architectures, mentoring analytics teams, and managing core business assets. Passionate about building solutions from scratch and turning complex data into high-impact products.

Professional Experience

Friendi Mobile Oman | Telecom Core Segment & Product Strategy Lead | (2025 – Present)

Strategic Management: Managing core segment assets and shaping product roadmaps to drive market growth.

Data-Driven Decisions: Leveraging advanced data insights to identify market gaps and launch new, competitive product offerings.

Execution: Connecting high-level business strategy with operational execution to ensure successful product deployment.

Rihal.om | Technology & Consultancy Analytics

Engineering Lead & Solution Architect | (2022 – 2025)

Team Leadership: Grew, mentored, and led a high-performing analytics team, fostering a culture of technical excellence.

National-Scale Projects: Led the architecture and delivery of critical government portals, including the **NCSI Open Data Portal**, **eCensus**, **SME Open Data Portal**, and the **Ministry of Agriculture Portal**.

Infrastructure Design: Designed a **Unified Open Data Infrastructure**, creating a scalable blueprint that streamlined the development of future portals.

Consultancy: Provided expert solution architecture, data governance frameworks, and Data Warehouse (DWH) solutions for enterprise and government clients.

Oil & Gas Contracts (BP & Operators) | Energy Sector

Operations Lead & Data Specialist | (2018 – 2022)

Operations Management: Led an operations team of **20+ personnel**, overseeing fleet monitoring, road safety, and HSE supervision.

Innovation: Architected and built the **"Road Analysis" App**, a custom solution mining second-by-second historical data to assess road engineering and compliance.

Safety & Compliance: Analyzed vehicle-related data correlations with fatality rates to implement data-backed safety improvements.
